

LUKE DESMET PARKS & RECREATION BOARD

Luke DeSmet has been a proud resident of Spring Lake Village for the past 5 years. After obtaining a Biosystems Engineering degree with an ecosystem's concentration from Michigan State University, he has had the opportunity to work in a variety of interesting roles such as an environmental engineer for a manufacturing facility in Grand Haven, a software engineer for Oracle in Chicago, and most recently a sound and vibration engineer for a French DAQ company called OROS, where he manages all sales and support for North America.

In his free time, Luke enjoys an active lifestyle with his golden retriever Prairie Dog, whether it's sailing on the lake, gardening, golfing, and playing competitive video games. He also likes to give back to his community, so he currently serves on the Parks & Recreation board, where he loves the ability to make a visible and meaningful impact. Luke is also a certified storm water operator in Michigan and a SkyWarn weather spotter.

Luke's favorite place to spend time in the Village is Mill Point Park for concerts and Marv's Bark Park for some quality pup time. He loves Spring Lake and is always looking for ways to make it a better place.
